

ATTACK LIFE

I recently launched the Greg Norman Champions Golf Academy which will be headquartered at the Barefoot Resort in Myrtle Beach, South Carolina. We hope to open numerous satellite facilities and have tentative plans to open two of these locations in Canada and Mexico within the near future. We also plan to host roving Academies. The Academy will provide instruction to golfers at every stage of their amateur and professional careers. The Academy will offer a comprehensive development platform for players, incorporating fitness training, sports psychology and instruction using bio-mechanics and cutting edge technology. Greg Norman Champions Golf Academy is another opportunity for me to give back to the game of golf.

I am not playing as much golf now competitively, but I still want to ensure the growth of the game and what better way to do it. I have the Greg Norman Golf Foundation which provides guidance and instruction to juniors in Australia and stars such as Karrie Webb and Adam Scott were influenced by that program.

We recently launched the Greg Norman Junior Development Program at Mission Hills in China, and now the Greg Norman Champions Golf Academy. You get a huge swelling and sense of pride by giving back to the game. With all the wonderful instructors I've worked with in the past... I'm in a position now where I can give a lot of those experiences and advice back to other people.

"Setting goals for your game is an art. The trick is in setting them at the right level neither too low nor too high."
